25X1 Evaluation of ORR Project No. 33.891, [REDACTED]

25X1 1. The attached project represents a listing of personalities and organizations. The project research work is of good quality.

25X1 2. The real question which arises with a study of this type is whether there is a sufficient number of consumers to justify publication. It is proposed to publish this as a Research Aid [REDACTED] and its the opinion of the [REDACTED] that there will be a need for about 50 copies to be used by all the groups concerned with [REDACTED]. While this appears to be a high estimate, especially in view of the document's classification, publication could possibly be justified if the estimate number of consumers were only 20 to 25.
